Dear Eric

On behalf of everyone at Mercedes AMG High Performance Powertrains (HPP) and Mercedes-Benz, we would like to thank you once again for the amazing contribution that you and your team have made towards our success in the 2015 Formula One season.

The Silver Arrows F1 W06 Hybrid has broken all the records with 16 wins, twelve 1-2 victories, 18 poles, 15 front row lock-outs, 32 podiums, whilst amassing 86% of the maximum points possible, allowing Lewis Hamilton to become triple World Champion and the Mercedes AMG Petronas Formula One Team to win its second Constructors' Championship. Due to the reliability of the Power Unit, Mercedes was the only Power Unit provider that did not use more than the permitted 4 Power Units per season and thus none of our drivers incurred grid penalties.

We appreciate the support you have given us during this season to enable these remarkable results to be achieved. We never take for granted the extraordinary efforts of your staff members, so please pass my personal thanks to each and every one of them who contributed to re-writing motorsport history.

Please continue your great support to us as we all remain focused on improving both performance and reliability to become even stronger for the 2016 season.

Yours sincerely

Andy Cowell
Managing Director
