Dear Eric

On behalf of everyone at Mercedes AMG High Performance Powertrains (HPP) and Mercedes-Benz, we would like to thank you once again for the contribution that you have made towards our success in the 2018 Formula One season, allowing us to win the fifth World Championship title in a row.

The Silver Arrows F1 W09 powered by the AMG F1 M09 EQ Power+ scored 655 points winning 11 races, achieving 13 pole positions and 24 podiums. Since the introduction of the Hybrid Power Unit in 2014, 74% of the race wins have been powered by Mercedes.

This year's Championship has been both challenging and exciting at the same time and we could not have achieved these results without your hard work, dedication and support. Please pass our personal thanks to each and every one in your team who has contributed to this success.

We are working very hard, with your help, to further improve the performance and the reliability of the Power Unit and to become even stronger for the forthcoming 2019 championship challenge.

Yours sincerely

Andy Cowell  
Managing Director
